

# The Best Part of Me

The best part of me is my eyes. I like my eyes because they are dark like my dogs' eyes. I can see bright colours and I can read interesting books . With my eyes I can see the colours of the world around me like rainbows in the sky. Without my eyes I wouldn't be able to see God's creations , or see where I am going. I wouldn't be able to watch my shows on tv. I wouldn't change anything about my eyes because they are what help me see the world.
